- ▶ **BENEFIT**
Gain the knowledge required to enable business growth, and establish a competitive edge in your market.

SYNERGY/DE
Education

More than Technology. Knowledge.

Highly Focused Classes Deliver Essential Knowledge
Crucial for Business Expansion

Given the complex array of developing technologies and the requirements of a fast-moving business market, staying ahead of the curve is critical. Businesses today recognize the importance of investing time and money to ensure that staff is knowledgeable on current and new technology. They view this investment in intellectual capital as key to business growth and expansion.

Synergex® offers a number of convenient knowledge-transfer opportunities to help your management and development teams accelerate. Developed with business directives in mind, our educational offerings identify key techniques for business expansion and opportunity. They're as much about process as product, with a firm basis in consistent and proven methodologies.

KNOWLEDGE TRANSFER OPPORTUNITIES

Getting up to speed on evolving technology—like Web, Web services, XML, HTTP(S), or COM—is critical for business application developers who want to establish and maintain a competitive edge in their market space. Bringing new features and technologies to your vertical market application is the imperative that will expand your business and make sales with prospective customers.

Education quickly becomes a tool of choice for anticipating new business opportunities and adding the knowledge required to enable business growth and expansion.

For software developers who need highly focused, very specific education to develop applications leveraging current code, we provide experienced Synergy/DE instructors and high-quality training opportunities. Because our expertise extends beyond the Synergy/DE development environment, we can deliver knowledge on current technology that you can begin implementing immediately.

"Using Synergex Education Services cut our training time in half! It expedites the entire training process. We thought our in-house training program was pretty good, but once we brought in Synergex to teach our new programmers, we learned that there was a lot we could do to optimize our training process. "

Jim McKenny, Director of Development
Computers Unlimited

"The Synergex consultant modified the course material to my specifications ... It was molded to the way we use the Language. There was a distinct cost-savings, and I didn't have to spend a week of my time lecturing!"

Barbara Rico, Director of Mail Order Systems Devt.
Health Business Systems

Highlights

Highlights Webucation seminars provide an overview of a specific product or technology via a Web-based presentation and audio-conference call. They are simply the most cost-effective way to stay up-to-date on the latest Synergy/DE features and related Web technologies that you can integrate into your business applications.

Class length: 1 hour

Fee: Free

Essentials

Essentials classes provide intensive training to help your development team get up-to-speed immediately on Synergy/DE technology. Class structure includes focused lectures with hands-on lab exercises for each major topic to reinforce learning. A strong emphasis in real-world business programming will foster learning that is both practical and team oriented.

Class length: 5 days

Fee: \$1995

On-Site Training

If your company has a training requirement not covered by a class on our standard schedule, we can design and conduct a customized class for your company, at a location of your choosing. You may choose to keep the course private with unlimited attendees from your company only, or open the course to the public in an effort to offset the training fees. If you choose to open the class to the public, Synergex will make a concerted effort to market this class externally, in order to make the fee requirements. If Synergex is unable to enroll the additional students, however, your company will be responsible for the remaining balance.

Class length: 5 days

Fees:

Class	\$1,995 per student, \$7,500 minimum
1 travel day	\$750
Meals (6 days @ \$40 per diem)	\$240
Transportation	\$600
Miscellaneous expenses	\$100
Estimated Total	\$9190

Contact your Synergy/DE Account Manager to set up a custom training course.
